Claim Rejections - 35 USC § 102

1. Claims 1,2,3,4,6,8,9,18,19,23,26,27 are rejected under 35 U.S.C. 102(b) as being anticipated by Moaddeb (5324325).

Moaddeb is considered to encompass all of the structure of the above claims.

Figure 1 shows an active fixation assembly in the form of a helical electrode that has a pocket at the distal end where medicaments are stored. Re claim 8, the space at the distal end of the lead where the helix is located is considered a cavity, and the drug 56 is inside the cavity. Re claim 18, the material that is removed from an outer surface of the fixation helix is considered to be the material that the helix is made from. Thus, the annular bore is formed by removing material from the helix, including its outer surface.

2. Claims 29-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Altman et al (6358247).

Re claim 29, see figure 1c where the cavity that forms the passage extends from a distal side to a proximal side of the hypotube 114. Re claim 30 see figures 8 and 8a where the drug 810 is inside the tube 812, and escapes via passage 804.

Allowable Subject Matter

3. Claims 10,11,13-17,28 are allowed.

4. Claims 5,20,24,25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Vachon (5833715) teaches making a port using various methods, including electrochemical machining.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
